USRN Licensed – Work from Home – Philippines

Description

CENSON Health has staff nurse jobs for licensed USRN's to provide telehealth services to patients with chronic health conditions.

These positions are work from home, so you will need good internet access, a quiet work area, and good English communication skills.

If you have expertise and credentials in the following (or allied) areas a 10% bonus will be applied:

- Diabetes care and/or education
- Dementia care and/or education
- Substance abuse care and/or education
- Obesity care and/or education
- Cardiac care and/or education
- Mental health care and/or education

We have shifts available 24/7.

To apply please send a comprehensive resume, outlining any special skills as noted above, and provide your USRN license number for verification.

You will be contacted for interview (online) in the coming weeks.

Responsibilities

You will be engaging the patients online, by call, by video, and by messaging, and working with their doctors and care providers.

You will be [remote patient monitoring](#) the vitals, updating records, and ensuring that they adhere to their care plan.

Qualifications

- Bachelor or masters in Nursing
- USRN License
